IN REPLY REFER TO:

TO: ALL LAW ENFORCEMENT AGENCIES

FROM: Bill Erwin, Criminal Justice Data Center

SUBJECT: 1973 Third Quarter Arrest Statistics

This quarterly report is an accumulation of arrest statistics for the first three quarters of 1973. This data for the third quarter 1973 is then compared with data for the third quarter 1972 and the changes are noted in the line graph on the following pages.

Note that statewide misdemeanors and felony arrests (total arrests) have increased by 10.5% over the third quarter of 1972. In viewing the overall increase it should be noted that felony arrests have increased by .1% while misdemeanor arrests have increased by 12.2%.

Juvenile account for the same percentage of arrests (24%) as they did for the same period in 1972. Male and female arrests also were nearly the same percentage of arrests, (male felony 90%; female felony 10%; male misdemeanor 83%; and female misdemeanor 17%).

It appears now that as we are gathering more quarters of arrest data that we will be able to predict the amount of arrests to the end of the year.

Felonies have been about the same amount this year as last year and it is reasonable to expect that they will amount to about 5,050 for 1973. Misdemeanor arrests on the other hand have been ahead of the same period for last year by an average of 11%. Using this figure as a projection, we can expect an increase of about 3,550 misdemeanors for a total of 36,000 misdemeanor arrests for 1973. Total arrests for 1973 should amount to about 41,050 arrests.
